

I am one of 2.8 million people in New Jersey who signed up for the "Do Not Call" program in the state. Like so many others, I welcomed the opportunity to not be disturbed by unwanted telephone calls from telemarketers, (how annoying they are). This program is a proven success and it represents the wishes of at least 2.8 million citizens in the state. Please do not cower to the wishes of the telemarketers against so many people who have shown their wishes to "Not Be Disturbed" by signing up for the "Do Not Call" program. Thanking You in advance for respecting our wishes, Daniel J McCartan
